FOR IMMEDIATE RELEASE

**360USAINC.COM - YOUR ONLINE SOURCE FOR
THE DISABILITY COMMUNITY
ANNOUNCES THE ONLINE OPENING OF SHOP360USA.COM**

**360usainc.com launches all-encompassing online retail shop
for the disabled community and their caregivers.**

November 1, 2006 - The past year has been a busy one for www.360usainc.com. A new logo, new site design, and now a new e-shop where the disabled community can find the very best gear to get around, beneficial health care necessities, plus items simply designed for more comfortable living.

Viewers can still enjoy insightful articles and up-to-date event coverage that www.360usainc.com is well-recognized for, but with the addition of the new online shop, the site becomes a "one-stop" for doctors, patients, and caregivers. In addition to basic care items for daily use, patients and professionals can choose from an extensive product list for top health and safety items, industry necessities, and products to test dexterity and flexibility, balance practice, and much more.

The easy to navigate site offers thousands of items, completely well organized and categorized for viewer's convenience. Competitive pricing is clearly listed, images accompany each item and products can be added to your shopping cart with a single mouse click.

www.shop360usa.com enables www.360usainc.com to be one of the top online resources for the disabled community. To view the entire product list, visit www.360usainc.com and click on the Shop 360 USA link, or get there direct via www.shop360usa.com.
